

WHO ARE WE?

- The Production Services Association of NW Florida (PSA-NWF) is FIRST & FOREMOST a networking organization for individuals on the Emerald Coast involved the "Behind the Scenes" aspect of film, television, videography, photography, recording, and live performance productions. The meetings and website forum (www.psanwf.com) allow members and non-members alike to learn about what's happening in our area. It also provides opportunities to advertise upcoming production jobs and share experiences and accolades about past productions.
- The PSA-NWF is an educational resource for people interested in production and wants to learn more about it. Through the use of workshops, guest speakers, mentorship and internship opportunities, students of the craft can gain valuable knowledge and insight into the world of production.
- The PSA-NWF goal is to provide a friendly and useful production infrastructure and location venues for outside production crews considering Emerald Coast for their latest project. We also want to market our member's capabilities and resources to our local business community considering out-of-state agencies.
